DISCOUNT POLICY

We are keeping the same discount structure as last year. If you have signed up for us to keep track of your discounts in our computer, remember that as of January 1 all totals reverted back to \$0 and you start the Year with the same discount that you ended with last year and have a \$0 balance. All discounts are based on the total amount of purchases over a one year period. Please do not come in and say that you got such and such a discount. You might have gotten a higher discount at one time because of a sale. That does not mean that's the discount that you get all the time. We are giving out cards telling you what your current discount is and for you to keep in your wallets. To eliminate confusion, **you must present your discount card and photo ID every time you purchase to receive your discount—discount cards may not be shared.** If you do not have a discount card to present when you check out, you will not receive your discount, so please don't ask. This is standard policy across many industries, so please work with us and carry your discount card with you all the times.
